NEW SITE. BRIGHTER FUTURES.

How Your Donation Will EMPOWER OUR VISION

A new space will allow us to provide:

- S** • **Stability.** Our staff, volunteers, and Low Vision Club members will have a long-term place to call home.
- I** • **Inclusivity and accessibility.** A new home will enable us to fully focus on our mission of fostering hope, offering help, and promoting independence for people with vision loss.
- T** • **Technology.** With a stable base of operations, we can invest in better equipment that will further expand our reach and keep us on the cutting edge of broadcast technology.
- E** • **Expansion of our services.** We will be able to increase our services, ensuring our long-term impact on the community.

WHY You Should EMPOWER OUR VISION

Since 1997, the Low Vision Resource Center (LVRC) has enhanced the quality of life for the blind, visually impaired, and print impaired through the Low Vision Club and OWL Radio. Both are offered at no cost; therefore, we rely solely on grants and generous donations from our supporters.

The Low Vision Club:

Sponsors San Antonio's annual Low Vision Expo and Symposium. Additionally, Club members meet monthly, allowing them to:

- Share personal experiences and concerns,
- Participate in educational discussions,
- Receive hands-on support, and
- Combat isolation, fostering a sense of community.

OWL Radio:

Delivers daily radio broadcasts, providing access to the written word 24/7, 365 days a year. This is accomplished by:

- Dedicated volunteers who read the *San Antonio Express-News* and other publications, including *Prevention*, *Sports Illustrated*, *AARP* and many more.
- Access to our broadcast through:
 - Live streaming from our website: <http://www.owlradio.org>
 - Owl Radio Reading App on Apple and Android phone
 - Specially tuned radio (many thanks to Texas Public Radio who provides our subcarrier channel!)
 - Alexa: Just say, "Alexa, enable Owl Radio"
 - On the TuneIn app
 - On-demand through our podcast page
